

PRESS RELEASE –CHILE – NEW PARTNERSHIP WITH TODO HUINCHA

Temuco, Schötz, October 2018

With great pleasure, we announce the ISELI agency for Chile has been assigned to TODO HUINCHA. TODO HUINCHA will be the official dealer for ISELI products in Chile from January 2019. TODO HUINCHA is using ISELI equipment and is building up a wealth of knowledge on the benefits of ISELI Machinery.

About TODO HUINCHA

TODO HUINCHA is located in Temuco, Chile. We have more than twenty years of experience in the blade solutions industry. We import and sell band saw blades for wood and lumber, and also for metal, food and foam; circular blades for wood; and various supplies for blade sharpening workshops. Our main clients are from the timber industry, which is very important in Chile.

The company is currently developing and building a new workshop which will feature Isele state-of-the-art machines for leveling, tensioning and measuring blades, stellite tipping and swaging, and also side and profile grinding. The workshop will be completed by March, 2019.

We are a family business run by its founder and his sons. Our goal is to provide a fast and reliable service of excellence and we aim to be the national leader in the market.

About ISELI

Isele, based in the Swiss city of Schötz, is proud of more than 70 years of tradition and know-how in the sharpening and processing of band-, gang-, and circular- saw blades. Its constant dialogue with its customers enables ISELI to develop sharpening machines and solutions, setting world standards for the industry. Furthermore, ISELI offers innovative and practical solutions for rational stelliting, swaging and measuring of band- and circular saw blades, as well as for the sharpening of industrial blades, chainsaws and hand tools.

As a traditional family operated business in the third generation, ISELI develops products with the latest technologies combined with excellent engineering - Made in Switzerland. The focus remains on economic and ecological requirements.

ISELI keeps its reputation to be the first choice for sharpening room optimization and solutions and became a world leader. ISELI's strength next to innovation and quality, - is project planning and support of complex and challenging projects for individual and practice- oriented sharpening room solutions. The ability to advice, optimize and support equipment modernization sets ISELI apart from other manufacturer and closer to its customers around the globe. If necessary we create solutions individual, based on customer needs!

Please direct your enquiries to Mr Sebastián Muñoz who is coordinating Isele machinery sales for Chile.
